

THE NOVA SCOTIA ASSOCIATION OF REFLEXOLOGY PRACTITIONERS

The Honorable Chris d' Entremont
Minister of Health
4th Floor, Joseph Howe Building
P.O. Box 488, 1690 Hollis Street
Halifax, N.S. B3J 2R8

Date:

Dear Mr. d' Entremont:

I would like to express my support for The Nova Scotia Association of Reflexology Practitioners (NSARP) in their endeavor to represent professionally practicing Reflexologists in this province and to integrate Reflexology therapy as a respected vital component into our health care system on behalf of the citizens of Nova Scotia.

I am a subscriber to Reflexology therapy and can attest to the positive benefits to my health that I have experienced as a result of treatment. I ask for your consideration in recognizing Reflexology as a health care modality and accord it the same status as other treatments such as physiotherapy, chiropractic treatments and massage therapy, to name a few, as has already been done in such countries as Denmark, Great Britian, Germany and Switzerland. It has been proven to be a cost effective and successful means of treatment.

Reflexology therapy may be used as preventative health care, to complement 1st aid treatment in the event of an injury or sudden illness, or as an effective therapy for chronic conditions. It functions as a highly effective adjunct to our current health care system.

THE NOVA SCOTIA ASSOCIATION OF REFLEXOLOGY PRACTITIONERS

Nova Scotians need access to quality, affordable health care services and the registered certified Reflexologist (RCR) has a valuable role to play in its delivery. As a health care consumer I am requesting the following action:

- **Declaration of Reflexology therapy as a profession**
- **Inclusion of Reflexology therapy in our health care system**
- **MSI coverage for Reflexology services**
- **Declaration of a provincial Reflexology week**

Thank you for your attention to these affairs and I trust you will work with NSARP to further these goals for the benefit of all Nova Scotians.

Sincerely,

Name	Address	Phone Number
