

Reflexotherapy of the Feet (RTF) Study and Review Day

Gabi Domes-Giebel, Canadian Instructor in training for the International School of Reflexotherapy of the Feet, is returning to Nova Scotia to offer a full day of review and practice of Hanne Marquardt's teachings (Orientation on the structures of the foot, ANS stabilizing grips, scar treatment, working *with* the pain) from Study Day 1. She will also be bringing news from the German school, review and demonstrate the flexible treatment order of a Reflexotherapy session, and showing us how to read the feet RTF style. Gain confidence with these techniques, knowledge about when and how to apply them in your own practice, and prepare for Hanne Marquardt's return visit in the Fall for Study Day 2.

**Saturday, April 25th, 2009
9:00 am to 5:30 pm
at the
Meadowview Community Hall
Kentville, Nova Scotia**

What to Bring:

- a massage table is preferred over a chair
- pillows to support your head and knees
- a light blanket for covering up while you are being treated
- your handouts and notes from Study Day 1
- paper and pen for note taking
- snacks for yourself for the 2 health breaks
- a dish to contribute for lunch
- a sweater in case you cool off during the day

Lunch will be a Potluck on the premises allowing time for networking with and learning from each other. The hall has a full kitchen with a fridge and stove that we may use.

What is being supplied by NSARP:

- tea, coffee and juice
- wipes for foot cleansing
- hand sanitizer

Cost: \$70 NSARP members
\$75 non NSARP members

**Space is limited.
Register today to avoid disappointment.**
